Its one-of-a-kind three-dimensional structure sets the tone

creating an environment that is both original and ultramodern. A beautiful ipe wood floor lends a welcoming warmth to the venue.

**LE
PARQUET**

Édifice Jacques-Parizeau

hides a truly spectacular location, one of the most impressive indoor spaces in Canada: The Parquet.

This outstanding gathering space offers a host of possibilities and has become a distinctive venue for corporate events like banquets, cocktail receptions and galas evenings.

A vast and luminous glass-walled atrium

that horizontally connects the city blocks between Victoria Square and the Jean-Paul-Riopelle public square.

ENJOY SOME OF THE COMPETITIVE BENEFITS OFFERED BY ONE OF THE MOST PRESTIGIOUS MEETING SPACES IN MONTREAL

A wide range of layout possibilities to meet the requirements of both large-scale events or more intimate gatherings

A 420 guest capacity for banquet type events

An 800 guest capacity for cocktail receptions

Two outdoor terraces adjacent to The Parquet

An atrium extension adjoining The Parquet provides space for creating a private lodge, a cocktail lounge or exhibit

A broad selection of accredited caterers and audiovisual providers

The opportunity to host an event that meets your eco-responsible goals

An ideal downtown location that is accessible by foot, by metro via the underground pedestrian link or by car, with parking in the Quartier international de Montréal indoor parking garage linked to the building.

TECHNICAL SPECIFICATIONS

Measuring just over 250 feet long, The Parquet rises 125 feet high and is built on a 10,000-square-foot wood floor. The three-dimensional structure that supports the immense atrium and the roof allows for the highest level of natural light.

STAGING EQUIPMENT

Lighting systems at ceiling level and at the foot of the beams for creating the desired atmosphere

AVAILABLE TECHNICAL EQUIPMENT

Numerous floor channels for audiovisual equipment cabling

250 amp electrical capacity

Technical booths (8) suspended from the ceiling throughout the room, each independently adjustable in height

Wi-Fi Internet access

PLAN AND DIMENSIONS OF THE SUSPENDED TECHNICAL BOOTHS
